

Cal Climate Action

What is Cal's commitment to climate action?

Cal is committed to reaching 1990 level emissions by 2014 . This aggressive target will take individual action and campus investment in efficient and renewable energy. Campus operations emit over 200,000 metric tons of carbon dioxide into the atmosphere every year, equivalent to 4 tons (or driving a car 10,000 miles) per person on campus.

What can you do?

Come find out at

FOCUS THE NATION

January 31, 2008

At the International House

Day long engagement featuring

- ✓ Science & Policy
- ✓ Institutional commitment
- ✓ Student led Breakout series
- ✓ Individual and community action

Focus the Nation is a day-long symposium about climate change and potential solutions scheduled to occur on university and college campuses all over the United States on January 31, 2008.

Inform. Reform. Transform

This event is brought to you by Berkeley Institute of the Environment (BIE) and Cal Climate Action Partnership (CalCAP)

THE BERKELEY INSTITUTE
OF THE ENVIRONMENT
UNIVERSITY OF CALIFORNIA, BERKELEY
